CAREER GOAL

As an engineer, I have always been inquisitive and curious.I would like to improve these features in a corporate company that works with todays technology rather than the textile industry that operates away from it

PROJECTS

- Ergonomics Project
- 5S Project
- Lean Manufacturing Project
- Kaizen Project
- Work, Method, Time Study Project
- Startup Project

WORK EXPERIENCE

Junior Merchandiser

Deniz Tekstil | Ocak 2021 - still working

- Understanding customer expectations and demands, transferring them to the production team.
- Controlling, observing of all production stages of the collection
- Calculating and preparing the prices at the beginning of the collection
- Adding orders to the system and doing necessary steps

Internships

DOK-SAN | June 2020

- I assisted in production planning.
- I participated in the 5S project initiation phase.

ALTINBAŞAK | August 2019

- I observed the production process and prepared a report.
